

Teaching Mathematics with technology (TMT)
 Week1 : Introduction to Geogebra and ICT in Education

Download the sample sketches and re-create them with Geogebra

1. How many angles are there?
2. How many are inside the triangle?
How many are outside the triangle?
3. What is the sum of angles?
Will it be same for any triangle? Verify.
4. Is there one more exterior angle possible?
How many angle pairs are there?
5. Which is the largest side?
Which is the largest angle?
Any connection?
